

# Professional Cleaning Experts.

Serving property managers, facility managers, and more.

A person in a white shirt and safety harness is seen from behind, working on the exterior of a modern glass skyscraper. The person is suspended by ropes, likely performing window cleaning or maintenance. The building's facade is composed of large, rectangular glass panels separated by dark frames. The sky is a clear, bright blue. A large, semi-transparent teal rectangle is overlaid on the lower half of the image, containing white text.

### Hospitality Cleaning

Whether your business is a restaurant or resort, guests come to you ready to have a good time. Few things can damage guest satisfaction as quickly as a cluttered, dirty, or uncomfortable atmosphere.

### Event Center Cleaning

Whether it's a concert or a sporting event, visitors to your event center deserve a clean, healthy and safe environment where they can enjoy the game, show or performance.

### Warehouse Cleaning

Every warehouse facility has different cleaning needs because of its size, what it distributes and the products stored in the building.

### Education Cleaning

Whether it's a university classroom building or elementary school, a clean, safe and healthy space to learn is vital for all education facilities.

### Shopping Center Cleaning

Whether you own or manage a gym or retail store, you must stay on top of your cleaning responsibilities.

## How we work

Cleaning need not be a strenuous process after all. Especially when it comes to your commercial cleaning process. But this is possible only with proper planning and on-point execution. Taking care of every little detail is how you can make your commercial cleaning services count.

Worry not, we have the perfect solution that can get you started in the right direction. All it takes is just your dedicated efforts and 7 simple steps. No matter how complicated your internal structure is, this framework can help you at least get the basics right.

### 1 Inspection

Identify all the stains and corners that need a deep cleaning routine. This effort will actually reduce the overall time that is involved in cleaning.

### 3 Mopping with a disinfectant

There are various commercial-grade disinfectants that are available in the market. Choose the most organic ones of the lot which are 100% non-toxic.

### 2 Sweeping, vacuuming, and dusting

Always go from left to right motion while sweeping your entire premises. Don't go from room to room, even one or two dust particles can go from one room to another.

### 4 Sanitisation of high-touch points

Some of these high-touch points include your staircase rails, elevator buttons, switchboards, electronic gadgets, armrests of your furniture, door handles, flush buttons, toiletries, snack or coffee dispenser buttons, etc.
